GTAG3

Environmental Control Made Simple

GTAG3 Air-Guard

GTAG3 on GTAG3RD Split Reducer Plate

The GTAG3 Air-Guard® easy fit surface mount is a retrofit unit to seal existing floor openings. The GTAG3 cable seal will cover an opening up to 200mm x 200mm. A reducer plate (Ref: GTAG3RD) is available to seal openings up to 300mm x 300mm and is used in conjunction with the GTAG3 grommet. The gtg3 cable seal provides an easy, economical and effective solution to quickly seal unprotected openings in the raised floor and immediately improve the cooling efficiencies.

Sealing around cable openings offers the following benefits:

- Reduced air loss and increased under-floor static pressure.
- Improved cooling efficiencies and extended cooling equipment life.
- Dramatically reduced plant running costs. Unsealed cable openings can account for up to 50% of conditioned air being wasted in the cooling process.
- Facilitates Cold/Hot Aisle best practice.

GTAG3 Air-Guard® Surface Mount features:

- Overlapping brushes improves cable seal.
- Two piece surface mount assembly designed to retrofit around existing cables.
- Manufactured from high strength flame retardant ABS and Vo rated quality nylon brush.
- Simple and inexpensive installation – includes screws and adhesive application options.
- RoHS compliant.

GTAG3 Air-Guard® Surface Mount Dimensions:

- Covers any shape up to 200mm x 200mm. Overall size – 250mm x 250mm x 25mm.
- Unit can be used as 2 no. perimeter seals to cover 2 no. 200mm x 100mm opening.
- GTAG3RD adaptor plate used with the GTAG3 unit, covers any shape cut out up to 310mm x 310mm.

AIR|GUARD®
the cool choice™

Gromtec Europe has supplied cable grommets and flooring accessories for over 15 years. Our products are installed in projects around the world. All units are typically available from stock for immediate delivery.
